SUMMARY

Computer science freshman with experience in web applications and game systems, strong foundations in object-oriented programming, state machines, and JavaScript/Python development.

EDUCATION

University of Maryland, Baltimore County

May 2029

- GPA: 3.867
- Major in computer science, expected graduation: May 2029

LANGUAGES

Fluent in: English, Spanish, French, and Hebrew

TECHNICAL SKILLS

Programming Languages: Javascript, Java, Python, C#

Web: HTML, CSS, Firebase authentication and storage

Relevant Knowledge: Object-Oriented Programming, State Machines, Data Structures, Asynchronous Programming, Git

PROJECTS

Monster Mash

March 2025

- Designed and built website for tracking classroom points using Firebase as host
- Implemented Google authentication to restrict unauthorized use and allow multiple class accounts
- Included server-side storage for student data, including names, avatars, and point totals
- Continue support after deployment based on classroom feedback

My Little Cults (game)

Summer 2025

- Collaborated on a four-person team for a two-week game jam.
- Implemented NPC behavior which incorporated state-machines, pathfinding, and interaction with other objects
- Helped design and implement mechanics-related autogenerated events

Balloon-Scape (game)

Summer 2022

- Independently developed large-scale, 2D game featuring complex enemy AI, player controls, custom UI systems, performance optimization, pathfinding algorithms, and a dynamic open world
- Implemented distance-based entity pop-in system to save on performance and insure map stability

PROFESSIONAL EXPERIENCE

Camp Counselor, JCamps

Summer 2024-2025

- Worked as an inclusion advocate to help campers with various needs participate in activities

Sunday School Teacher, JLABs

December 2025 - Present

- Facilitated student learning and engagement

Co-Founder, Balloon Business

2016–Present

- Maintained professionalism while engaging customers, developing responsibility and ability to work under high pressure situations

Volunteer, Wellwood Elementary School

2022–2026

- Assisted with classroom setup and supported students with special-needs
